January 31, 2025

Dear Grades 5-8 families,

On February 11, 2025, our grades 5-8 girls will have a wonderful opportunity to attend:

International Day of Women and Girls in Science, celebrating the achievements of women and girls in STEM while inspiring the next generation to pursue their passions in science, technology, engineering, and mathematics. The symposium will be hosted here in our gym. As the host school, our girls have the opportunity to attend this symposium.

There will be activities, a panel discussion, and a guest speaker is planned. They will also have the opportunity to visit some booths and see firsthand opportunities in the fields of science and technology here in Winnipeg.

The grades 7 and 8 boys will be attending a field trip to the Manitoba Museum doing self-guided tours in conjunction with the social studies curriculum. The grades 5 and 6 boys will have presentations and demonstrations here at the school presented by the Mad Science group.

The afternoon will see all students attending our Catholic Schools Mass at Holy Cross Parish.

We look forward to these exciting opportunities for the students.

Yours in Catholic education,

Mrs. Catherine Walker
Principal Holy Cross School

Dr. Anju Bajaj
STEM Advisor MCS
